

Rate LGA's effectiveness on INVASIVE AQUATIC WEEDS - (e.g., support and/or influence Weed Control Council and Stakeholders Board, influence / appeal to government entities, educate the public)

County	Full Time/Part Time	Rating	Comments
Warren	Part Time	Excellent	always a problem but its good to know how others are dealing with it
n/a	Part Time	Good	Doing a good job with the funds available.
Mecklenburg	Part Time	Fair	Have never received help with the weeds at our location.
Halifax	Part Time	Fair	I continue to think that the LGWCC interface with homeowners and subdivisions individual programs for nuisance weed control could be better coordinated.
Warren	Full Time	Good	I dont think the entire lake is supported in the area of weed control. I feel only major sections of the lake are represented.
Mecklenburg	Part Time	Good	I have previously paid for hydrilla treatment for 25 years without any public assistance while many areas receive treatment at government expense almost every year. Is really fair. My taxes help to fund these treatments.!!
Brunswick	(select one)	Good	I think the board of supervisors should do a better job of funding...they dont mind funding other items!
Warren	Part Time	Excellent	I think with the weed issues present and some new ones growing, the group is very proactive to keep the lake clear and free of problematic invasive aquatic weeds.
Brunswick	Full Time	Good	I work with BPG to support weed control to the full Amount 116,000
Halifax	Part Time	Poor	Invasive aquatic weeds are becoming an increasing nuisance each year; from my point of view the only beneficial anti-weeds program is the one I pay for. If LGA is working on this the results are NOT apparent in my cove.

Rate LGA's effectiveness on INVASIVE AQUATIC WEEDS - (e.g., support and/or influence Weed Control Council and Stakeholders Board, influence / appeal to government entities, educate the public)

County	Full Time/Part Time	Rating	Comments
Northampton	Full Time	Fair	Need more
Halifax	Full Time	Good	Need more emphasis on lyngbia
Warren	Full Time	Excellent	Need to do a better job with publicity concerning re-vegetation
Northampton	Part Time	Excellent	Need to keep counties 100% involved financially in this program
Warren	Part Time	Good	Ours improved last summer. Keep up the good work!
Mecklenburg	Part Time	Poor	Press harder for weed control
Warren	Part Time	Fair	some of us never get picked for treatment by the Weed Control Council.
Warren	Full Time	Excellent	Thanks
Halifax	Full Time	Excellent	This was the issue that led us to join the LGA.
Northampton	Part Time	Poor	We always have to pay for our own treatment even though we pay taxes other properties get treated year after year and our never has
Brunswick	Part Time	Fair	We need more influence and help with control of noxious aquatic weeds on Lizard Creek specifically, but in general on all more shallow creeks.
Halifax	Part Time	Good	We still have hydrilla
Northampton	Full Time	Fair	We still have weeds, so I am not able to rate this as excellent.
	Part Time	Good	You can never control it
Warren	Part Time	Poor	You supported additional taxes to deal with invasive weeds. I already pay more tax for my 1100 sq ft cabin at the lake than I do on a 2500 sq ft house in a great neighborhood in Raleigh. And services services in RRaleigh are great. Here taxes are high and services are nil. And LGA supports even more taxes for something the county should be doing already in its own interest.
