

Rate LGA's effectiveness on INVASIVE AQUATIC WEEDS - (e.g., support and/or influence Weed Control Council and Stakeholders Board, influence / appeal to government entities, educate the public)

County	Full / Part Time	Rankings	Comments Invasive Aquatic Weeds
Warren NC	Part Time	Poor	Too much emphasis is put on incoming fishing, thereby too little emphasis is put on the hydrilla problem. Hydrilla treatment is POOR, resulting in large amounts of lake revenue going to companies who leave the lake virtually as they found it - "FULL of HYDRILLA"!
Warren NC	Full Time	Good	Cost me \$135 for upcoming hydrilla control on top of property tax bill of over \$3,000.
Halifax NC	Part Time	Good	Could help better coordinate efforts with LGWCC and community leadership
Northampton NC	Part Time	Fair	Hydrilla is still a problem and it should not be up to the owners to take care of the removal of this weed.
Warren NC	Part Time	Fair	Hydrilla seems to be winning the battle. Question whether to temporarily lower the lake level so homeowners could clear the more shallow areas would be an option. I dont recall the rational but the water level was significantly lowered in the early 90s and many residents cleared brush and debris from swimming areas.
Brunswick VA	Full Time	Good	I am involved in our sub-division to actively work to stay involved in the aquatic weed situation and what we need to be doing to help. Our sub-division is always willing to do their part.
Northampton NC	Full Time	Prefer Not to Answer	I am not yet familiar with the activities and or success of LGA.
Warren NC & Northampton NC	Part Time	Fair	I support the bringing the counties together to raise money for weed control. I do not believe enough pressure is put on VA and NC when it comes to grass carp stocking of the lake.
Warren NC	(select one)	Good	I understand the LGA is now a part of the Weed Control Counsel but Id like to see more information on the annual schedule for areas of the lake the counsel will target hydrilla and how they select those areas.
Northampton NC	Part Time	Poor	In all the years we have been at the lake we have not recd any spraying in North Point Cove,section b. If they have done it it has been very poorly done as we always have large growth of hydrilla. We hire our own people. We are told it is done further inland where it is more effective. We pay the same taxes as those do but get no spray.

County	Full / Part Time	Rankings	Comments Invasive Aquatic Weeds
Warren NC	Full Time	Excellent	just wish we had more power to get the necessary funds for weed control. i think the counties should understand that if they are not going to kick in the money for weed control we are not going to support them on their agendas.
Brunswick VA	Part Time	Excellent	Keep up the vigilent effort to control noxious weeds in the lake. Secure state funding for treatment as possible
Brunswick VA	Part Time	Poor	Last year our cove had to band together for privately pay for hydrilla control.Previous years our tax dollars paid for the weed control. Last year was so bad, I couldnt get my pontoon boat out until we sprayed
Halifax NC	Part Time	Excellent	Long way to go though.
FALSE	Part Time	Good	Need to continue to encourage regular treatment for Hyrillia in problem creek areas such as Lizard Creek every year if possible.
Northampton NC	Full Time	Fair	Pea Hill Creek (the main stretch) never gets aquatic weed control.
Warren NC	Part Time	Good	see above
Warren NC	Full Time	Good	See above. Accountability, grass carp.
Northampton NC	Part Time	Fair	See environment/ watershed protection above.
Brunswick VA	Full Time	Unsure	The end of Pea Hill Creek has not been treated in years. The hydrilla is getting very bad.
Northampton NC	Part Time	Excellent	Up to date.
Mecklenburg VA	Full Time	Poor	We must contract for our weed control every year
Northampton NC	Full Time	Fair	We pay and have it done.
Warren NC	Part Time	Unsure	We pay for our own in our neighborhood cove.
Warren NC	Full Time	Prefer Not to Answer	We pay for our own.
Warren NC	Full Time	Good	What feedback would we receive if funding was not available for the areas of the lake who get treated with public funds every year?
Northampton NC	Part Time	Good	Wish everyone that paid taxes would get weed control not just the ones that have the serious issues.
Warren NC & Northampton NC & Brunswick	Full Time	Good	Wish there were a way to get the government to understand the impact of these issues on us and the states as a whole. I know you are doing an outstanding job in your efforts.
Warren NC	Part Time	Good	Wish you could treat the massive case of hydrilla in our large cove in Moratuck Manor.

County	Full / Part Time	Rankings	Comments Invasive Aquatic Weeds
Northampton NC	Full Time	Excellent	Working with governments for weed funding, educating public on weed control, and being on weed council are all excellent efforts.
Northampton NC	Full Time	Poor	you keep favoring large out of state companies (eg. PLM) instead of our local, North Carolinian small businesses. how is that helping any of us??
