Names _____

Nature of Emergency _____

Address _____

Subdivision _____

Nearby Major Roads _____

Call Back Number _____

Stay on the line

Alternate fire phone # _____

Alternate rescue phone # _____

See Back of Card for More Information

It is always best to use a land line phone. If using a cellular phone, the location data must be very specific.

Provide name of caller and anyone having a medical emergency. Describe problem briefly.

Give accurate address information including street number (spell out street name) and closest major roads.

Provide call back number in case the call is interrupted.

Alternate resources must be dialed separately to the specific source; same info needs to be provided.
